## THE JOURNAL.

FRIDAY MORNING, MAY 12.

The editor of the New Albany Democrat is very anxious to commence the publication of a daily paper at that place, but is unwilling to engage in the enterprise without a certain prospect of its yielding a sufficient income to cover expenses, and pay a reasonable compensation for the additional amount of labor required in its successful prosecution, which he is inclined to doubt. In speaking of the matter he says:

DISEASE OF THE HEART, RUPTURE AND

New York, July, 22, 1846. Dr. Townsend—Dear Sir: My wife has been af-flicted with a terrible rapture for over fifteen years, the greater part of the time. She has been troubled with shortness of breath & great fluttering of the heart which has been very distressing, and has frequently been unable to leave her bed. The rupture was very large and severe. She tried almost every remedy for such cases with but little benefit. When she had ta-ken but three bottles of your excellent medicine she was entirely reneved of the disease of the leaf and the rupture has almost entirely disappeared.

She has also had the dropsy, and was very much swollen. We had no idea that she could be so benefited, as she had such a complication of diseases.

But it has, as strange as it may appear, relieved her of the dropsy. I am aware that this statement is so strange as to appear almost like fiction, but it is sober reality. Your Sarsaparilla is certainly a valuable medicine, and should be used by every one that suffering as we have been. If any disbelieve this account, they are at liberty to call at my house and have ocular demonstration. Yours, respectfully, WILLIAM TOWSER, I James st.
